PROFESSIONAL SUMMARY

Software engineer with 7+ years across backend, frontend, and mobile development, specializing in React Native and TypeScript. Progressed into senior engineering ownership, leading technical delivery across teams, aligning implementation with product needs, and supporting engineers through mentoring and knowledge sharing.

PROFESSIONAL EXPERIENCE

Pepperstone | Limassol, Cyprus

Senior Mobile Engineer | Aug 2024 – Present

- Own mobile engineering initiatives from requirements and architecture through implementation and release, balancing product priorities, technical trade-offs, and maintainability.
- Coordinate delivery across engineering, product, and other teams; communicate decisions, dependencies, and progress to keep stakeholders aligned.
- Mentor engineers through technical guidance and code reviews; use AI-assisted development daily and share reusable workflows that improve team efficiency.

Mobile Engineer | Jul 2022 – Jul 2024

- Developed React Native and TypeScript features for a production trading app, focusing on reliability, responsiveness, and maintainable code.
- Investigated rendering and application lifecycle issues, using profiling to reduce unnecessary re-renders and improve runtime performance.
- Built a native iOS module to measure application startup time and improve visibility into performance bottlenecks.
- Integrated Sentry, Datadog, and Segment for production monitoring and analytics; supported automated builds and releases through CI/CD.

EverestCM | Limassol, Cyprus (Remote)

Senior Frontend Engineer | Oct 2021 – Jul 2022

- Delivered React and TypeScript features, improving frontend maintainability and addressing performance issues.
- Integrated backend APIs and contributed to Docker and Terraform workflows supporting application delivery.

Orea.io | Limassol, Cyprus

Mid-Level Frontend Engineer | Feb 2021 – Oct 2021

- Built a React-based pre-trade application, implementing responsive interfaces and data-intensive trading workflows.
- Worked with product and design teams on usability, reusable components, and frontend architecture decisions.

GO.MEDIA KG | Remote (Germany)

Mid-Level Backend Engineer | Jul 2020 – Aug 2021

Junior Backend Engineer | May 2019 – Jun 2020

- Developed and maintained backend services and REST APIs using NestJS, Node.js, and TypeScript.
- Implemented business logic and supported integrations and data-processing workflows.
